NORTH SIDE MEN TO CLOSE STORES

Business Houses of This Side of River Will Close During Annual North and South Side Baseball Game Thursday.

The merchants of the north side will close their respective places of business from 2 until 5 o'clock Thursday afternoon on account of the annual ball game between the north and south sides of the river. This is but another instance of the pep being put into this year's contest by the north sides. They have been holding daily practices with their all star aggregation of diamond artists and are doing things up in fine shape preliminary to the game.

If the team is able to perform as well as it is expected to there is grave doubt of the south side aggression being able to stop it. The men of the south side have been negligent in practicing and seem to be resting their oars. They have usually come out of the games with the long end of the score and this year are inclined to feel over-confident. They managed to get out for a workout Thursday afternoon, however, and some of the team showed up in first class form for the game.

Another practice is slated for Wednesday afternoon and another one hour's workout before the game. This amount of work it is calculated will place the men in fighting trim for the contest.

There has been some doubt as to the organization of the south side team and reports have been circulated that it is about on the high seas without a captain. This is not the case, however, as the veteran manager of many victorious teams, J. W. Russell, will again be in command of the south side when they answer the umpire's call Thursday afternoon.

Thursday's game is slated for 3 o'clock. A large crowd is expected to attend.

WATER DEPARTMENT INSTALLING METERS

The city water department is busy installing the 500 meters recently ordered for it. The installation of these record keepers when completed will mean a great saving in water to the city as well as giving the department an opportunity to check up waste water.

Large meters for factory use have been ordered by the department and they are expected to arrive any day. They will be installed in the principal factories of the city and are expected to effect quite a saving in water used throughout the city.

The 500 small meters will not be enough to cover the city but more will be ordered as soon as this shipment is installed and by the time the new pumping station is opened it is expected that everyone will use water through a meter.

ACCEPT DONATIONS FOR PICNIC PRIZES

Directors Decide to Use Merchants' Donations As Prizes for Sports at Dodge Outing—Program Partially Completed.

Directors in charge of the Dodge outing have decided to accept donations from South Bend and Mishawaka merchants to be given as prizes for the different contests.

One donation of a gas range has been accepted from the Northern Indiana Gas and Electric Co., and other concerns have made offers but none were accepted until the directors acted. It is now requested that all merchants of both cities send in their donations as soon as possible and not later than Friday as the program list will then close, and will go to the printer's to be published in the special edition of the Dodge News to be circulated at the picnic grounds on the big day.

This paper was one of the features of last year's outing. Those offering donations will direct them to, or call W. L. Chandler, chairman of the sporting committee.

This is the seventh annual outing to be given by the Dodge Manufacturing Co. for its employees and those of the National Veneer Products Co. The picnic is to be held Saturday, Aug. 9, at Springbrook park. A three minute service has been arranged for that day.

The program will begin at 8:45 when all the members of the Quarter Century club, comprised of employees who have been with the concern for 25 years, will be taken to the park with their wives in automobiles where initiatory ceremonies will be held in front of the grand stand for all new members taken in at the annual meeting held last winter and for those admitted since. Pres. W. B. Hosford will preside.

Long Frost Program.
At 9:00 o'clock the sporting program will start off, and it is expected that the contests will last until 11. The sports will be held in the ball park. Admission to the grand stand will be free.

Then will come a children's parade, including all the children of employees of both factories. This will probably be the big feature of the day, and appropriate caps and decorations will be provided. Campbell and Tupper are in charge of this committee.

At noon a dinner for the Quarter Century club will be served by the company in the new shelter house recently constructed at the park. Last year the dinner was served on the island and in the midst of the meal a rain storm blew up and spoiled it. So no chances will be taken this time. W. E. Roe is in charge of the dinner.

In the afternoon a game of indoor baseball between the first ladders of the veneer plant and the pully works will take place. At 3:00 o'clock a regular scheduled factory league game will be played between the Dodge-Indestructors and Singers.

This will be the last game of a series of three between the two teams and as they stand a game each a hot contest is expected by league fans.

There will also be a number of other stunts in the afternoon on the lawn and on the island. There will be a balloon ascension by Madam DuVivene of Chicago and later on a herd of trained dogs will perform in the lagoon. At the casino motion pictures taken of the outing last year will be shown.

All employees and their families will be given free transportation to and from the park and tickets to all the concessions.

Elke's band will furnish music for the day. The first concert will be given on the four corners early in the morning.

The park will be attractively decorated with banners, bunting and Dodge pennants.

MEMBERS OF FIRST METHODIST HOLD PICNIC

Four Hundred Members of Church and Their Friends Pay Visit to Michigan City.

Probably the largest Sunday school picnic that ever left South Bend, was held Tuesday by the First M. E. church when over 400 members and friends of the Sunday school left by interurban for Michigan City, where the annual outing was celebrated.

Special cars left the interurban station and carried the party direct to the picnic ground. Athletic events took up the greater part of the morning, and after the big basket dinner, a steamboat ride was taken out on the lake and a large number went bathing.

It was the biggest picnic and greatest success that the church has ever had, according to Rollin C. Pifer, superintendent of the school. G. Cooper, physical director of the Y. M. C. A., had charge of the sporting events and a long list of prizes were given. The party returned to the city at 3:30 o'clock in the evening.

MEMBERS OF BOARD WERE NOT TO BLAME

According to Accountants School Board Knew Nothing of the Conklin Mortgage.

Members of the school board that acted last year were exonerated from the blame placed upon them regarding the Dr. F. G. Conklin mortgage which was overhauled by the attorney, Joseph Sullivan, in filing a condemnation proceeding papers and which were afterwards paid by the school board by the state board of accountants Tuesday, members of which had been investigating the records of the school board during the past six weeks.

The blame was placed on the attorney who filed the papers as he failed to find that a mortgage rested on the property. The accountants will report this to the state board at Indianapolis when they send in the report of the investigation.

CASES AGAIN CONTINUED

Saloon Men Say Important Witnesses Are Absent.

Another continuance, until Aug. 12, was granted Monday by Judge R. A. Kennedy, who was annoyed by the puffing of a steam shovel engaged in excavation on a street near the courthouse. He ordered the shovel stopped and when the noise continued he issued a warrant and held the crew brought into court. The superintendent in charge was asked by the judge whether it would be better to stop the shovel or stop the crew. The superintendent is said to have replied that if they interfered, the crew should stop and was promptly sentenced to jail for contempt. The removal of the crew was telegraphed on their promise to do no work while court was in session.

ROUGH SAILING AHEAD FOR BILL

Republicans in No Mood to Rush Through With Tariff if They Must Take Up Currency Bill Later.

WASHINGTON, July 29.—Republican senators made it clear Tuesday that they do not propose to hasten consideration of the tariff bill if the president and democratic leaders of congress are going to insist upon the enactment of currency legislation at this session. Sen. Gallinger declared that the republicans were in no mood to be forced and Sen. Lodge insisted that assurances of a prolonged hot summer session would not be conducive to hastening tariff action.

Discussion on this point arose when Sen. Gallinger sought information as to the status of the currency. Sen. Simmons said he hoped that the republicans were not making threats to delay purposely passage of the tariff, which all business interests wanted settled speedily. Republican senators assured him that they were making no threats, but that it was bound to follow that there would be no haste with the tariff unless an early adjournment should be the inducement therefor.

Sen. Gallinger said that reading in the morning papers every day that the president would insist on holding congress here to enact currency legislation would not speed up action on the tariff. Sen. Lodge added that it was most unwise to demand action on such important legislation as the currency of a "tired out" congress.

Progressive republicans disclaimed any intention to delay voting on the tariff unnecessarily, despite what else might be in store. Sen. Borah declaring that statements to the contrary from other sources did not express the views of all on the minority side.

Following an attack on the bill by Sen. Sterling of South Dakota, little progress was made in consideration of the earthenware schedule, several hours being occupied in discussing the rates on pumice stone and flint spar.

STEAM SHOVEL TOO NOISY; COURT ACTS

Man Who Thought Work Was More Important Than Court Is Sent to Jail.

PITTSBURGH, Pa., July 29.—When a steam shovel interferes with the Allegheny courts the steam shovel must cease operations, and when the superintendent in charge indicates that, in his mind, the removal of the shovel for stop the court is more important than the dispensation of justice, the superintendent must go to jail.

These principles were laid down in common pleas court Monday by Judge R. A. Kennedy, who was annoyed by the puffing of a steam shovel engaged in excavation on a street near the courthouse. He ordered the shovel stopped and when the noise continued he issued a warrant and held the crew brought into court. The superintendent in charge was asked by the judge whether it would be better to stop the shovel or stop the crew. The superintendent is said to have replied that if they interfered, the crew should stop and was promptly sentenced to jail for contempt. The removal of the crew was telegraphed on their promise to do no work while court was in session.
